1. Getting a vaccine is the best thing you can do to protect yourself and your loved ones. Our county clinic offers both Moderna and Pfizer options at no cost to you, no insurance needed! We make it easy to get immunized. Give us a call at (303) 239-7078 to make an appointment.
2. Take the upper hand against COVID-19 and get your booster vaccine! Did you know that you can get Covid multiple times, just like the flu? Staying up to date on your covid immunizations lowers your risk of getting sick. Stop by our county clinic or a pharmacy near you to get boosted.
3. Covid is evolving, and so are vaccines. The new Omicron booster dose is available to help keep you healthy and stop the spread! Click here to find out if you are eligible.
4. Misinformation spreads just like a virus. Don't let it infect you! If you need help deciding whether you want to get the COVID-19 vaccine, check out this fact sheet with information about the benefits of getting vaccinated and answers to frequently asked questions.
5. Don't let Covid stop you from doing the things you love! Stop by your local pharmacy or give us a visit at our county clinic to get immunized. That way, you can spend more time how you want, with the people you want.
6. Are you behind on your COVID-19 vaccines and not sure which dose to get next? Check out the CDC's COVID-19 Booster Tool to find out which booster you're eligible for or call our COVID Vaccine Information Center at 303-239-7000.
7. Cut out the quarantine! Get your vaccine today so you can continue living a maskless life. We have both Pfizer and Moderna options at our county clinic, or you can find a pharmacy near you.
8. School is more fun with friends! Getting vaccinated for Covid is the best way to make sure you don't miss out on life. Whether it's your first vaccination, or you need a booster, we offer both at our county clinic! You can reach us at (303) 239-7078 to schedule an appointment.
9. Herd immunity starts with you. Get vaccinated against Covid-19 to protect those who can't or are immunocompromised. Your choice can save the lives of those around you.
10. Vaccines are a vital tool in ending the Covid-19 pandemic. As the virus evolves, its important to stay up to date on your booster shots! That way, you can take control of your health and improve the health of your community.
